The *Unique Self Emergence Process* is a powerful and practical change technology, rooted in the Unique Self teachings. It's elegant structure facilitates the emergence of one's Unique Self, that is, the irreducible expression of Source expressing itself in, as and through each of us. The nine month professional certification training empowers change agents to embody the Unique Self teachings and facilitate this psycho-spiritual process with those they serve. While the process and the theory that underlies it, is broad in its scope and complexity, the fundamentals can be understood and experienced in this two day introduction. You will:

- learn the basic principles of the Unique Self Teachings.
- explore how Integral Theory, Western Development Psychology, the Enneagram, Neuroscience, along with ancient and modern spiritual traditions, are woven into the process
- discover how the *USEP's* core practices facilitate the journey from Separate Self to Unique Self.

Join us in an experience that will open your heart and your imagination to the creative possibilities of this process.
